

1	Which HANDS on LABs are preferred to be done to clear AZ900 please . As this is a fundamental exam
2	Like create a VM ? and what else please to cover HANDS on LABs to clear AZ900
3	Waht hands on LAB need to be done for AZ900 pls
4	Hello Reza, I am security fucus and would like to start fundamentals up in Azure .. I am req'ed to take scc 200 & 300 ... How would an Incident Response path look as it relates to certs from fundamental to SME? Thanks for answering our questions in advance
5	Any recomanded links for learning for migrating SAP HANA to Azure Db

Answers:

1. You need a good fundamental knowledge of Azure resources to sit and pass the AZ-900 exam. No deep dive is intended in this exam. The labs will cover basic scenarios, including creating resources, and basic configuration. You might find this article useful:

2. Same as #1
3. Same as #1
4. If you are taking the SC (Security Certification) path, I would suggest you take the following exams in this order. Also see this article: <https://techcommunity.microsoft.com/t5/microsoft-learn-blog/introducing-microsoft-s-new-security-certifications/ba-p/2147106>
 - a. AZ-900
 - b. SC-900
 - c. SC-200
 - d. SC-300
 - e. SC-400
5. You might find the following article useful:
 - a. <https://docs.microsoft.com/en-us/azure/virtual-machines/workloads/sap/hana-large-instance-virtual-machine-migration>
